(24/10/2017)

BES (British Election Studies) = most important and long standing post-electoral survey series in the UK, coordinated by an academic consortium (Universities of Oxford, Manchester, etc.). Surveys were conducted after all elections from 1964 to 2017 (file for 2017 survey still missing on 24/10/2017; to be checked again). In addition expert surveys on party positioning were conducted in 2014-2017. All files were downloaded from BES website: http://www.britishelectionstudy.com/

(29/01/2018: 2017 files are now available; I add them to other files)

See also special minority post-electoral survey (to be used):
